

# Tool: Accessibility Checklist (WCAG 2.x AA)

---

**Apa:** daftar periksa aksesibilitas vs **WCAG 2.x level AA**, disusun per prinsip **POUR**. **Kapan dipake:** tiap desain sebelum handoff (SOP-BL-03 §6.2). **Framework:** WCAG 2.x (W3C) — Perceivable, Operable, Understandable, Robust. **Aturan:** kontras fail / no focus state = **a11y Blocker**, gak boleh handoff. Trade-off AA vs estetika → escalate Tata 🚫 (kontrol BC3).

---

## P — Perceivable

- [ ] **Kontras teks AA** — body  $\geq 4.5:1$ , large ( $\geq 18\text{pt}$  /  $14\text{pt}$  bold) & UI  $\geq 3:1$ . Catat rasio tiap pasangan.
- [ ] **Gak ngandelin warna doang** — info juga lewat ikon/teks/pola (buta warna safe)
- [ ] **Alt text** — tiap gambar bermakna ada alt; dekoratif → alt kosong
- [ ] **Teks bisa di-zoom** 200% gak rusak layout

## O — Operable

- [ ] **Focus state kelihatan** — keyboard nav ada outline jelas (bukan dihapus)
- [ ] **Target tap  $\geq 44 \times 44\text{px}$**  (mobile)
- [ ] **Keyboard accessible** — semua aksi bisa tanpa mouse
- [ ] **Motion-safe** — hormati `prefers-reduced-motion`; no flash  $>3 \times$ /detik

## U — Understandable

- [ ] **Copy boomer-proof** (F-2) — bahasa warung, no jargon
- [ ] **Label form jelas** + error message actionable (bukan "invalid input")
- [ ] **Konsisten** — pola navigasi & label sama di seluruh app

## R — Robust

- [ ] **Semantik benar** — heading order ( $h1 \rightarrow h2 \rightarrow h3$ , gak loncat), landmark
  - [ ] **Form label terhubung** ke input ( `htmlFor` /aria)
  - [ ] **ARIA** dipakai cuma kalau perlu, gak misuse
-

## CONTOH TERISI (Proyek-Contoh — Hero + Stats landing v3)

### PERCEIVABLE

- ✓ Kontras: mauve.800/cream ~9:1 (heading) · slate.800/cream ~12:1 (body) · gold.700/cream ~5:1 (s
- ✓ Stats pakai angka + label teks, gak warna doang
- ✓ Hero photo alt="Pasangan pengantin berjalan di taman mawar, kebaya putih"

### OPERABLE

- ✓ CTA "Mulai Cerita Kalian" focus ring mauve kelihatan
- ✓ Button tap target 48px (≥44 ✓)
- ✓ framer-motion fade-up dibungkus prefers-reduced-motion guard

### UNDERSTANDABLE

- ✓ Copy "wishlist kado" bukan "registry integration" (boomer-proof)

### ROBUST

- ✓ Heading order h1 hero → h2 section, gak loncat

Ally Blocker: 0 → LOLOS WCAG AA. Lanjut handoff (SOP-BL-04).

Tercatat di log + bukti audit kontrol BC3 (kontras AA compliance).
