

Tool: Usability Heuristic Eval Checklist

Apa: daftar periksa audit usability vs **Nielsen 10 Heuristics** + lethal check boomer-proof. **Kapan dipake:** tiap flow sebelum handoff (SOP-BL-03). **Framework:** Nielsen 10 Usability Heuristics, ISO 9241 (usability = effectiveness + efficiency + satisfaction). **Aturan:** ada Blocker (flow rusak / a11y fail) → **gak boleh handoff**.

Nielsen 10 — checklist

- [] **H1 Visibility of status** — empty / loading / error state designed; user tau sistem lagi apa
- [] **H2 Match real world** — copy bahasa warung (F-2), ikon familiar, no jargon
- [] **H3 User control & freedom** — ada "undo"/"back"/"batal" buat aksi
- [] **H4 Consistency & standards** — pakai token design-system; button identik lintas page
- [] **H5 Error prevention** — validasi visual; confirm aksi destructive
- [] **H6 Recognition > recall** — label jelas, ikon+teks, gak ngandelin hafalan
- [] **H7 Flexibility & efficiency** — shortcut buat power-user gak ganggu pemula
- [] **H8 Aesthetic & minimalist** — 1 section 1 fokus, hapus noise
- [] **H9 Help recover from error** — error state kasih tau *cara benerin*, bukan cuma merah
- [] **H10 Help & documentation** — hint/tooltip kalau perlu (idealnya gak butuh)

Severity tiap temuan: Blocker (flow rusak / a11y fail) · Major · Minor.

Lethal check (boomer-proof, sebelum handoff)

- [] **3-detik mobile** — scroll cepat di HP, message utama masih sampai?
- [] **Ibu-warung test** — non-IT buka, ngerti CTA-nya apa?
- [] **Keep-3-element** — kalau cuma boleh 3 element di hero, yang mana? sisanya dipertanyakan

CONTOH TERISI (Proyek-Contoh — flow "Buat undangan baru")

H1 Status	✓	empty (belum ada undangan → ilustrasi + CTA), loading (skeleton), error (retry) des
H2 Real	✓	"Mulai Cerita Kalian" bukan "Initialize draft"; ikon amplop familiar
H4 Consist	✓	Button colorScheme=brand rounded=full identik dgn landing
H5 Prevent	✓	confirm sebelum hapus undangan; validasi tanggal acara
H8 Minimal	⚠	Major: form 1 layar kepadatan → split jadi 3 step (fixed)
H9 Recovery	✓	error upload foto: "Foto kegedean (max 5MB), coba kompres" — actionable

Lethal:

3-detik ✓ "Bikin undangan, gratis" sampai di mobile
Ibu-warung ✓ "Mulai Cerita Kalian" + ikon → ngerti

Keep-3  headline + CTA + preview card

Severity: 0 Blocker, 1 Major (fixed), 0 Minor → L0LOS, lanjut ally (accessibility-checklist).

Tercatat di log + jadi bukti audit kontrol BC4 (state coverage).
