

Tool: Palette & Color Tokens

Apa: definisi **palette LOCK Tata** + token warna sebagai single source of truth. Tiap warna punya nama token, hex, dan pemakaian. **Kapan dipake:** tiap desain (ambil dari sini, jangan hex liar) + Palette & Brand Governance (SOP-BL-05). **Framework:** WCAG 2.x AA (kontras), palette LOCK Tata (0 coklat). **Aturan keras: 0 coklat** ("jijiki"). Max 6 hue unik. Kontras teks/bg wajib AA. Pakai token, bukan hardcode (kontrol BC2, BC7).

Palette LOCK Tata (hard rule)

Pink soft · mauve · ungu soft · sage — varied (bukan monotone). **TANPA coklat.**

Keluarga	Boleh	Hindari
Primary	mauve / ungu soft	coklat, navy korporat
Aksen	pink soft, sage, gold (kalau Tata konfirmasi)	coklat, orange ngejreng
Neutral	cream, slate (bukan "gray" generic)	abu dingin korporat

TEMPLATE token (copy mulai sini)

Token	Hex	Pakai untuk	Kontras vs cream (AA?)
mauve.500	#...	Primary brand, button, accent	...
sage.500	#...	Aksen sekunder, sukses-vibe	...
pink.50	#...	Background lembut	(bg)
cream.50	#...	Canvas utama	(bg)
slate.800	#...	Body text (bukan gray generic)	✓ ~9:1
<semantic>	#...	success / error	...

Aturan: primary 1 + accent ≤1 (max 2 brand) + neutral scale 4-6 stop + 2 semantic. Variasi = tints/shades, **bukan** tambah hue baru.

CONTOH TERISI (proyek contoh)

Brand Proyek-Contoh — undangan digital editorial premium. Logo: **jasmine sage + mauve serif**. Palette mauve/sage/cream/slate + **gold accent** (Tata: "ungu pastel + gold = masuk akal").

Token	Hex	Pakai untuk	Kontras vs cream
mauve.500	#a87fb8	Primary brand, button (rounded full)	—
mauve.800	#6b4779	Heading kuat di cream	✓ ~9:1 (AA)
sage.500	#9caf88	Aksen botanical, logo jasmine	—
sage.700	#6b8454	Teks aksen di cream	✓ ~4.6:1 (AA)
cream.50	#fbf3f7	Canvas utama (pink-soft bg)	(bg)
slate.800	#2d2a35	Body text – BUKAN "gray" generic	✓ ~12:1 (AA)
gold.500	#c9a960	Aksen editorial: divider, stats	—
gold.700	#8d7239	Teks gold di cream	✓ ~5:1 (AA)
success	#6b8454	(pakai sage.700)	—
error	#b3506b	Error state – mauve-leaning, no merah ngejreng	✓ AA

Audit (kontrol BC2/BC3):

- [x] **0 coklat** — gold ≠ coklat (gold = kuning-emas, hue ~45°; coklat ditolak). Verified scan: no brown hue.
- [x] Hue unik: mauve, sage, gold, slate-neutral, pink-bg = **5 hue** (≤6 ✓)
- [x] Semua pasangan teks/bg lolos **AA** (rasio dicatat di kolom)
- [x] Varied (mauve+sage+gold+pink), bukan monotone

Hasil: dipakai di `theme.js` Proyek-Contoh landing v3/v4. Jadi acuan SOP-BL-05 enforcement.
